# MG's Corner

by (who else?) MG

It's March, the month during which we change back to Daylight Savings Time; the month that brings the first day of Spring. I have read that the month is named for Mars, the Roman god of war, as this was traditionally the time of year in which to resume military campaigns that had been interrupted by winter. These days, however, especially for some suburbanites, it has become merely the month to resume the ongoing war on crabgrass and other lawn invaders.

This is the month that some of us *seasonal car drivers* get a bit itchy for springtime activities. It's generally too early to drive the roadster with the top down, probably too early to get the car out of the garage at all since it takes so long for the roads to become reasonably salt-free.

Maybe it's not too early to begin to get the car ready for another driving season. You might find me in the garage changing the MG's oil, checking the tire pressures and looking at the spark plugs (if I wasn't in Tiny House Land, away from the cold and snow!), but then again, I might just be thinking that the garage is too cold (again, if I wasn't in Tiny House Land, away from the cold and snow!).

Maybe you won't get your MG (or whatever seasonal car) out yet, but you will likely have a good time with MGCC folks at the Club's annual Steak Roast and Auction on March 22<sup>nd</sup>. If the weather's good, a few interesting cars are likely to show up with their owners. I've always endeavored to make the Steak Roast the year's inaugural event for driving the MGB, and I'd be likely to try again this year (yet once again, if I wasn't in Tiny House Land, away from the cold and snow!).

Happy March!

## Valve Cover Racing and Wine & Cheese Tasting

February 16, 2020 – Bushman Cabin, Veterans Memorial Park, Henrietta

*By Allyn Wagner, Race Director*

It may have rained on the Daytona 500 this year but it was warm and dry at Bushman cabin for our annual Valve Cover Races. Eleven intrepid drivers showed up with their cars to race for a coveted gold first place trophy. The track was smoother than last year but that didn't stop the occasional on track collision and a couple of cars that came to a complete stop on course. Some adjustments were made but it looks like the need for some re-

Fan favorite Cooper D'Angelo performed a come from behind win over the other small bore cars and also won a special award for the "Fan

Favorite" award, a bit of a special birthday gift for her.

The big bore class was filled with the typical bantering among the senior drivers. After some mid race adjustments, Bill Baldwin eventually eked out a win with the fastest car.

## A Trip to Naples, Naples Florida That Is

*By Dick Powers*

Every few years, Bethel and I get to Naples Florida in January for some sun, great food, a visit with **Georgan and Bob Abels** and Cars. Yes, Cars. This year was no exception and the warmth of Naples was a welcome change from the Rochester cold and snow. Even the food at the restaurants we like in the Old Town area of Naples and on Sanibel Island seemed better. But the best time we have is when we go to dinner with MGCC members, Georgan and Bob Abels, who have a winter home there.

This year, they selected a British pub called the

*Georgan and Bob Abels and Bethel Powers at the British Open Pub near Naples, FL.*

"British Open". I know we have Brit and Irish pubs here, but the British Open is *Royalty* by comparison. It's a place with great food and for having fun with great friends.

*Bob and Georgan, Bethel and Dick*

And yes, I did mention Cars. Naples, Florida is the home of the Miles Collier Collections, now managed by the Revs Institute. It's possibly the largest and best-displayed collection of sports and race cars in America and one of the top collections in the world. Naples, Florida is in Collier County, an area developed by the Collier family many years ago and named for Baron Collier in 1923. That's the same family the All MG Collier Cup race at the Glen Vintage is named for.

*Front of the Collier/Revs building*

The Collier/Revs Collection is housed in a specially designed three-story building. There are "airlocks" at the entrances and the HVAC system is so good, they never have to dust the cars!

*Entry - sports car display*

This collection and building are not new. The late Bob Philip told me about it 40 years ago and our first visit was in the 1980s. Not long after that, it was closed to the public.

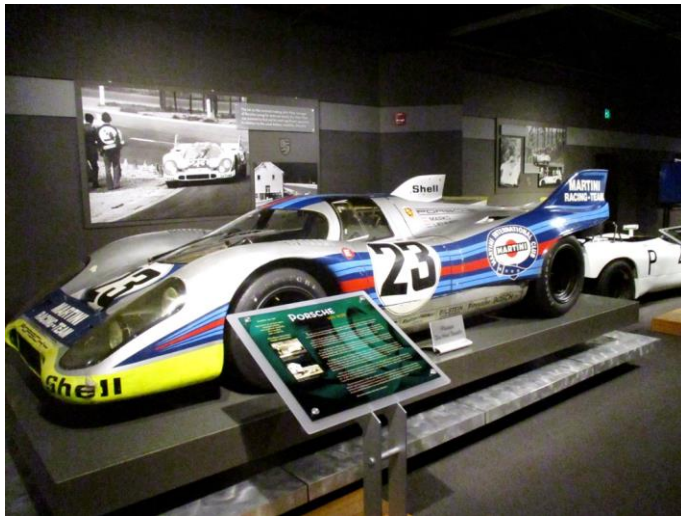

*(article continues next page)*

## A Trip to Naples, Naples Florida That Is (continued from previous page)

In the late 90s, when it was closed, a few of us, who were Collier Cup awardees, could get private tours. Not anymore as all have to pay to see the collection that's on multi levels and has an entire wing devoted to Porsche.

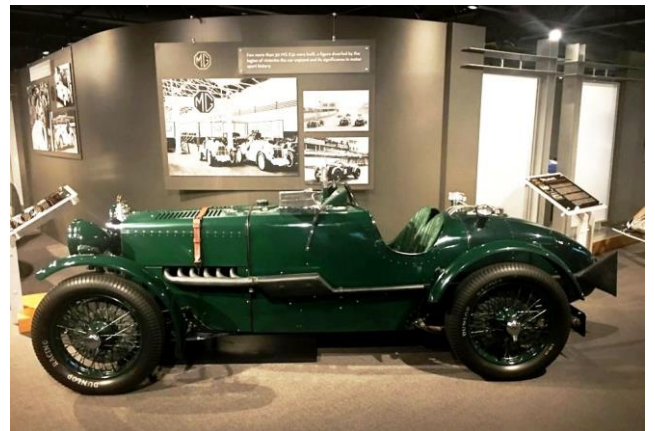

*a view of the Porsche wing*

*1971 Porsche 917-019*

There are also many British, Italian and American cars on display. They include a K-3 MG and the famous specially bodied MG PA/PB "Leonidis" that you may have seen at the Glen during some of the vintage race weekends. There's also a nice collection of Bentleys and Jags as well as some lovely Alfas, including a Sprint like mine, and a priceless 8C 2900B similar to the Alfa that won the first Watkins Glen Grand Prix in 1948.

*1934 MG K3 Magnette – front and side views*

*1950 Cadillac that was raced by Miles and Sam Collier to a 10<sup>th</sup> place overall finish at LeMans*

They also have a very stock looking 1950 Cadillac that raced at LeMans, finishing 10<sup>th</sup> over all. Along with the many special road cars, there are many cars designed just for racing. *(article continues next page)*

These include a fabulous 1939 Mercedes W-154 GP car, a BRM GP car, Gurney Eagle, Scarab, Ford GT 40, a Ferrari 250 LM and numerous Briggs Cunningham racers that won at places like Sebring and the Glen. There's also a Made In Rochester 1920 Cunningham V3 Speedster that in its day, had the largest V-8 of any American car and set three world speed records. All this from a Rochester company that usually made luxury cars for the ultra rich and hearses! By the way, all the cars run, except the all-original 1961 Maserati "Birdcage", and are driven on the road or track. I know this is true, because as I was leaving, one of their Bentleys passed me at speed.

"...one of their Bentleys passed me..."

The Revs institute also has a full research library as well as a complete restoration/maintenance shop.

I've just scratched the surface of all they have, but if you haven't been there, it's a must see if you are near Naples or just traveling through Florida.

The collection is only open Tuesday, Thursday and Saturday from 10AM-4PM. They suggest it will take

Scarab

1.5-2 hours to see the collection and if you'd like, they also have knowledgeable docents that lead tours. You can check them out online for tickets or a virtual tour or call (239) 687-7387. The Collier/Revs collection is located at 2500 Horseshoe Dr. South, in Naples, Florida.

I've been there six times and always enjoy being around those lovely cars.

## **Racing World Mourns Passing of Peter Argetsinger, IMRRC Leader, Champion Racer, Driving Coach** – *International Motor Racing Research Center*

WATKINS GLEN, N.Y. (Feb. 11, 2020) – Peter O. Argetsinger, a member of the International Motor Racing Research Center's Governing Council and an international racing champion and respected driving coach, is being remembered across the industry for his talents and joy in the sport.

Argetsinger died Thursday, Feb. 6, at his home in Watkins Glen after a fight against cancer. He was 69.

As the son of Jean and Cameron Argetsinger, who was the founder and organizer of the first races in Watkins Glen, motorsport was an important part of his life from early on. Maintaining a home in Watkins Glen, as well as Sebring, Fla., Argetsinger was involved with the IMRRC since it opened. He joined the Governing Council in 2018.

"Peter was an incredible racer and beloved racing instructor, but most importantly he was a good friend," John Saunders, senior advisor at NASCAR and chairman of the IMRRC Governing Council, said. "The world of motorsports is richer for his dedication to developing young talent and growing the sport's future. Pete will always be considered family to the International Motor Racing Research Center, an organization to which he devoted much wisdom and guidance."

Watkins Glen International President Michael Printup, also a member of the IMRRC's Governing Council, noted Argetsinger's dedication to the sport and Watkins Glen.

"Peter was an important part in carrying on the legacy and tradition that his father, Cameron, and family started here in Watkins Glen," Printup said. "He will be remembered for his passion for auto racing and his continued desire to make this community a worldwide staple as an international racing destination."

"I met Peter this past summer in between his coaching sessions at Watkins Glen International. It was a real pleasure to meet him," said Dan DeRusha, who was appointed IMRRC executive director last June. "Peter was a constant advocate of the Center, sharing our mission with other racers and carrying on the legacy of Cameron and Jean, who was one of the driving forces behind the creation of the IMRRC."

Argetsinger pursued a 47-year career as a professional road racing driver until his health failed last fall. He was a member of the Road Racing Drivers Club and had successes on the world's major courses, initially in Europe and then in the U.S. and South America.

Watkins Glen International was naturally on the list of tracks at which he raced, and in 2011 Argetsinger was inducted into the Watkins Glen Drivers Walk of Fame, a project of the IMRRC. He was introduced by his brother Michael Argetsinger, an award-winning motorsports author. Michael died in 2015.

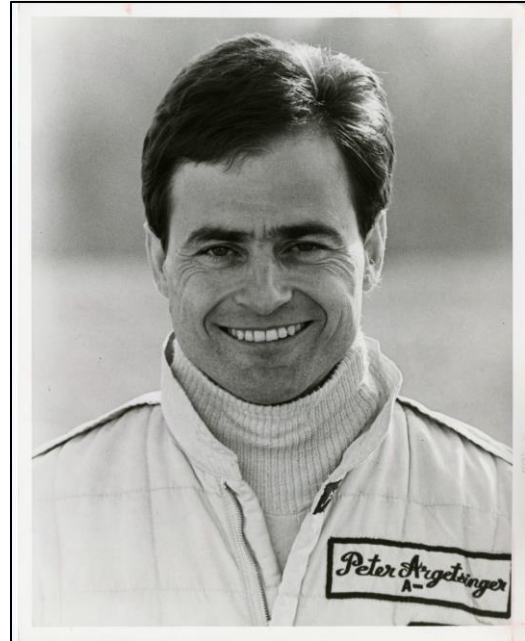

Argetsinger was named German Rookie of the Year Formula Ford 1974 and set the series' fastest lap at the famous Hockenheimring, helping his Team Royale clinch the European FF Title. After moving to England, he captured the 1980 British Formula Ford Championship and was voted British Driver of the Year. Competition in Formula Three, sports cars, sedans, as well as IMSA and Daytona prototypes, followed.

Argetsinger coached many successful professional drivers at the start of their careers, including 1996 Formula One World Champion Damon Hill, Indy 500 winners Juan Pablo Montoya, Ryan Hunter-Reay and Alexander Rossi and others including James Hinchcliffe, Graham Rahal and Gabby Chaves.

Additionally, he instructed at the Skip Barber racing school, tutored private clients and was chief instructor of the Formula BMW young drivers' series in the U.S. and in Europe. The U.S. State Department's Anti-Terrorist Division also used his talents.

Up until his final days, he was sought after for the 2020 season as a driver and coach, family members said.

Argetsinger is survived by Sjoukje Schipstra, his beloved wife of 45 years, and his children Kimberley Argetsinger of New York City and J.C.G. Argetsinger of Los Angeles.

Peter Argetsinger in 1980, the year he won the British Kentagon Formula Ford Championship.

## IMRRC 2020 Focus: Women in Motorsports

(from *THE LOGBOOK – News from the International Motor Racing Research Center*)

---

*Kathie Meredith*

The IMRRC (International Motor Racing Research Center, at Watkins Glen, New York) will celebrate the contributions of women in motorsports behind the wheel and behind the scenes in conjunction with the 100th anniversary of American women's suffrage. The project explores the experiences of pioneering and current women drivers as well as the role women have played in organizing races, overseeing timing and scoring, managing race tracks, owning teams, improving safety, and designing and engineering racecars.

**Exhibitions:** The primary exhibition will be at the Research Center, with smaller complementary displays in other venues in Watkins Glen.

**Lecture Series:** The theme of women in racing will also be reflected in IMRRC's regular lecture series, "[Center Conversations](#)," with free public programs featuring prominent women in the industry in May and October. Dates will be announced soon.
