Chairman's Corner

Dave Chase

Greetings to all,

Many thanks to Roger Mabbett for being our speaker at the March meeting. It was very interesting to hear about all the rallies that Roger was in overseas. We're still looking for more speakers, if anyone could please let me know of a possibility, I would appreciate it.

I feel sure that when you read this that we will be getting some decent weather. Hopefully, sometime soon we will be complaining that it's too hot out. I hear that the steak roast was another great event and that over eight hundred dollars was made on the auction. The work of the committee for the steak roast is much appreciated. Remember that Leon is looking for advertisers to put in the program for our car show. Please let him know if you can help him on that.

I guess that's about it for this month. Please keep Bob Tescione and Michael Claprood in your thoughts and prayers as they are going through some difficult times. See y'all at the April meeting.

To coin a phrase "Roll that Beautiful Summer Footage". Looks like that is how we get to see summer. Mother Nature is trying our patience as we wait for a good day to drive our sports cars.

April brings warm temperatures ?? !!!!! Being that we live in Rochester we have learned to be patient and things will get better. To quote Tim Rizzo " Out of something bad willlll come something good". So bad winter weather will become a great driving season. The same goes with getting my MGB (Bruce) on the road. The Swing into Spring event this month will have good weather to bring out those sports cars. Even the Moss Motoring Challenge will have lots of good weather for your trips.

Continue to collect and restore those cherished British Sports Cars. Those bad looking rust heaps will become beautiful pieces of art that you can drive and show off .See ya at the meeting.

Happy Top Down

Allen Colquhoun

By George Herschell

Al and his wife Liz were members of MGCC WNY for a number of years even though they lived in Welland Ont. They traveled with us on many occasions on our new England Mountain Adventures and also came here for our car show for a good many years. They were probably Nancy and my best friends and they had many friends in the club. He lost his wife Liz a few years ago. They were a great couple to travel with. And they were both around our age and she and Nancy talked (via phone) at least a couple of times a week. Lost contact with him after Liz died.

Just found out about this yesterday and thought some of the members who knew him would appreciate this information.

Colquhoun Allen - Passed away peacefully at the Welland Hospital on Wednesday January 8, 2014 in his 72nd year Beloved husband of the late Elizabeth (nee

Brown). Sadly missed by Jeannie Davis and Kathryn Chevrier (Paul). Also survived by Elizabeth's family: Joseph Brown (Chris), William Brown (Dee), Herman Brown Jr (Mary Ellen), Lena Dennis (late Roy), Helen Biro (Frank) and Florence Brown as well as a number of nieces, nephews, great-nieces and great-nephews. Cherished friend and companion Leah Johnston. Al will be sadly missed by many close friends and neighbors. The residents of Parkway Drive will miss the sights and sounds of his red 1953 MGTD during the summer evenings. Predeceased by his parents Allan and Peggy Colquhoun. Al was born and raised in Welland. He was a former member of the Copestone Masonic Lodge #373, an active member of the Niagara Rods and Rides, Niagara British Car Club and the MG Car Club of Victor NY. He was a car enthusiast and a model train hobbyist who strived for perfection in his restoration work. Respecting Al's wishes, cremation has taken place. Visitation was held at the H.L. Cudney Funeral Home, 241 West Main Street, Welland on Tuesday, January 14th from 11a.m. – 1:00 p.m. A private interment will take place at a later date. As an expression of sympathy, donations to All People's United Church or the Welland Hospital Foundation would be appreciated. A special thank you to the staff from the I.C.U. at the Welland Hospital for their care and compassion. On line condolences available at www.cudneyfuneralhome.com

“GOING, GOING, GGGGGGGGGGGGGGGGONE”

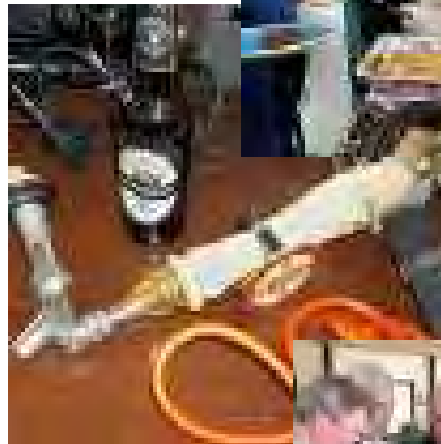

By Ted Hershey

That was the call at the Steak Roast and Auction held by the Club on March 16, 2014 at Eyer Lodge in East Rochester. First the food, as always Chef Zak and Chef Baum prepared the tantalizing steaks to perfection. You know they tasted better this year than they had in the past. Was it the cow or the fact that they were free? I personally feel that the cow and the preparation are the most important ingredients to a perfectly prepared steak. Along with the steaks came a plethora of scrumptious sides that were provided by many of the finest kitchens in the area.

Now on to the auction. Ninety items were brought to be auctioned. The list too grand to be mentioned here, but they did include model cars, tools of all kinds, books on cars, welding torches, air sanders, T-shirts and sweat shirts, a grease gun that leaked just a little, British car parts galore, and last but not least the item that brought the house down was a bottle of beer, not a six pack, not a case but yes, a single bottle of Old Engine Oil black ale. This well-preserved, aromatic beverage brought the unbelievable price of \$50.00. This ale is brewed in small batches and is described as being viscous, chocolatey, and roasty. It is brewed in Scotland were I assure you nothing goes to waste.

In closing the Steak Roast was an overwhelming success. It brought \$852.25 to the Club's treasury and an unbelievable amount of fun to those who could make it. The auctioneers, Doug Scribner and Ted Hershey thank everyone for their bids and we hope to see you next year. Who knows what treasures will top the list.

My Cars 2 / Sports Car

By Allyn Wagner

In January 1966, I purchased my first MG. My previous experience with MG's and sports cars in general was in college. Prior to that, I lived in a rural area where cars like that were a real rare sight. At school in Utica, one of my room mates drove a 47 MGTC and several other classmates had sports cars. This was a community college so their parents must have saved the money they saved on tuition and spent it on cars. I of course had to walk or bum a ride from my richer classmates. The next year, most of them showed up with new cars. My room mate traded the TC for a 65 Sprite, another dumped his 56 Dodge for a 65 Corvair Corsa, there was a classmate with a new Mustang, and another left his 56 Chevy home and drove a 63 Buick Riviera. My 49 Chevy was of course still at home in my dads driveway.

Anyway, on a cold January night I got a ride to the BMC dealer to pick up the new MGB that I had chosen. It was after dark and the salesman didn't go through any real instruction on the car for me. He just put the plates on and made sure I had the deposit and loan papers before he handed me the keys. Like I said, I had never driven one of these before so it was a little interesting getting started. The first thing I noticed was that there was no dome light. I found the ignition switch OK but was not clear on how to turn on the lights. There were three unmarked toggle switches on the dash so I just started flipping them until the lights came on. Not wanting to look like more of a dummy, I put the car in gear (at least the gearshift was marked) and left the lot like I knew what I was doing. Driving down the street, I looked at the dash to see what was there. I noticed that the gas gage was

on empty so I immediately pulled into a gas station and proceeded to put 11 gallons of gas in a 12 gallon tank. The engine was also down at least a quart of oil. Not what you would call a clean start of ownership. I did make sure the dealer felt my displeasure on my next visit.

Over the next three years, I put over 80,000 miles on that car and drove it through some very significant changes in my life. I was a very young single college graduate when I first purchased the "B" and it was my only mode of transportation. My job at the time saw me move around quite a bit so I had to be able to pack my whole life in the car to go from one job to the next. I was also dating a girl from up north so there were many weekend trips across New York State to keep up my social life. I even went on a couple of double dates in that car in the winter time. That was interesting!

The next change was getting married to the girl I had been dating. This involved going to Niagara Falls for our honeymoon and of course more moves. For a while after our marriage, we moved every three months for work reasons. Since my family now included one more person, this meant more things to pack into a two seat MG. The addition of a luggage rack helped but did not solve the space issue. At times like this, my father was more that willing to trade me his old 58 Chevy or push button Dodge for the MG for a period of time. Even with that, the MG was driven and resided in New Jersey and three states in New England.

During the first year of marriage, a third family member was added to this two seat adventure. This is when I found out that the rear luggage shelf was perfect for a portable travel crib. Really it was nothing more than a vinyl covered cardboard box with a thin pad for a mattress. Now the luggage rack got more use and my 60 year old father got more seat time in the MG.

Through this whole affair, the MG did not survive without some misadventures. Since we live in a changeable weather region, it went through several upstate New York and Vermont winters. One weekend in Massena the -30 degree weather put it in a heated garage for three days before it would start. There were also three accidents and two transmission changes due to a bad second gear syncro.

Once my son had grown out of the little "car bed", we had to think about getting a larger car that would fit a car seat. I could not afford a second car so that meant trading the MG. Before I had even made the last payment on it, The B was traded in on my first family car, a Pontiac Firebird.

Next to the warehouse
is a garage full of British cars. And our co-workers often commute in theirs. We put these cars to work every day.

When new parts are developed, we test them. If a part is returned, we'll bolt it on, analyze it, and work with the manufacturer to make it right.

If we are not happy with a part being on our cars, we wouldn't think of selling it to you. And, just to make certain you are satisfied, we stand behind our parts with the longest warranty in the business.

Call us. We'd love to send you a free catalog.
