Don's Corner

By Spokes editor, Don Welch

In case you may have any doubts about what a great privilege it is to be a member of one of the world's finest car clubs, our cover this month should reassure you! **Al Wagner** has been struggling to get new glass in his TA windshield for several months. Thanks to help from a long time MG family, the **Herschells**, it is now complete and Al is all smiles!

Quite a few of us enjoyed a warm sunny Saturday and each others' company at the Canandaigua Car Show. Kudos to **Rob Lillis** & company for organizing such a big and successful event. Photos start on page 22.

Our **New By-Laws** were adopted at our April 16th club meeting. You can see the complete text starting on page 29.

Another of the great things about belonging to our club is sharing each others' joys! Last week **Nick & Lizzie Leykin** welcomed baby Selma into this world, and all of us extend warmest congratulations to the Leykin family!

There are more and more car shows and cruise-ins coming along. If you know of one coming up, let the rest of us know too, and if you attend one, please take some pictures to share.

Have a great MG summer!

Safety Fast!

Don

Frank, you are in our hearts.

Chairman's Corner by Ken Barlow

Welcome to May! The May meeting was well attended, and I suspect the next five will be as well. Hopefully you've been driving one or more of your favorite old cars frequently and heartily with great gusto. I know I have. We've been running the Camaro and Sprite quite a bit.

Taken the Camaro to cars and coffees, opening day at Watkins Glen and Chris got to drive some laps and random trips around the area.

The Sprite has been to a few cars and coffees, the Memorial Day car show at the Windmill and more than a few trips around the area. Speaking of the Sprite, it has a Dynamator, an alternator in a dynamo body. Looks just like a dynamo, except two wires and an internal voltage regulator. Now that it's functioning properly I was able to pivot to a funny noise coming from the thing, and took it to Pro Rebuilders in Gates where they let me know in no uncertain terms how the quality control of the manufacturer wasn't quality or control. The spindle inside the tach drive was bent and rubbing inside the drive mounting sleeve making the "this sounds like a bad bearing" sound. No bushing around it in which to spin.

Once removed, the dynamator is quiet. But no tach drive. So I'll communicate with the manufacturer and swap to an electronic tach. My tach hasn't been connected to date, and I'm not stressing the lack of that instrument's functionality. But at some point, maybe later this year when I swap to a 1275 in the Sprite, will a tach become more useful.

No big deal, I have electric tachs in the horde. They aren't original equipment but really, if we've met, you know that's not a problem either.

I also got the Midget on the road, swapping out the leafspring rear bushings. One pair was deleted from each side, presumably due to age. The rear-end makes less noise now. One step forward eight steps back as I also discovered that car is in bad need of a passenger floor. Possible plan in the works. More on this later in the summer.

For now, it would be great to get a few months of uninterrupted driving.

First is a request for someone to host the "hot dogs and cool cars" picnic. AKA "drive someone else's car" picnic.

Second, a Spring or summer tour would be pretty cool. Nothing fancy. The Fall Tour is the big one, so maybe a drive from some central location out to Orbachers in Williamson or a drive to Ontario County Park. Or out West, meet out by Clarendon? You let me know and I'll help you arrange it.

The club is healthy and happy, the car show is coming together, the season is off to a great start and events are stacking up. Keep the invitations flowing, a growing club is a healthy club.

And if there's an event you want to attend, let the club know and we'll pile on.

See you on the road!

Ken

Stephen's New '67 Sprite!

Hi all!

I am very pleased to share with you the newest addition to my family: Our first (complete) British convertible, it's a 1967 Austin-Healey Sprite that we decided to name "Birdy"!

It needs a minor amount of work done—I've been in contact with Ken and the Roberts, and the consensus is the timing, distributor (already fiddled with), and honestly just the carburetors in general. Much more approachable than the wire nest situation in my last car (I still shudder thinking about it).

I would also like to give a *tip of the hat* to Ken, Trevor, and Alana. (And this better end up in the next issue of Spokes in big bold letters because they deserve it!) The three of them have been so extremely helpful when it comes to getting quick information and wisdom/advice about this car, as well as (in the future) helping with the car. Everything, from the Roberts supplying a trailer and making 100-mile round trips, to Ken taking the time to send out massive texts giving specific step by step instructions and being an encyclopedia of knowledge—everything is greatly appreciated. I don't think I would've got anywhere without them.

I'm looking forward to getting this car on the road for the season. Having split the cost with my parents, it more falls under the category of a "family vehicle" (for those who know how to drive standard, which is only my parents and me haha) so I won't necessarily have free reign whenever I want. But honestly, I have no regrets whatsoever because I get to have the opportunity to share these amazing experiences with my parents.

Cheers,
—Stephen L.

Tip O' The Hat!

Thanks so much to Ken Barlow, Klint LiMuti, Justin Foster & Pete Fazio for ALL your help at the Edison Tech Shop Day event and Bob Newell Edison Tech for his assistance too & letting us finish the job and staying to 1 pm!

Joe Bellizia

To Celeste & Dave Kray for hosting the Canandaigua after-show get together at their home. To Celeste for putting on such a sumptuous spread of goodies. To Dave for going to rescue Eric when his brakes gave out, and for ferrying me back to Ray's restaurant to get my truck & trailer so I wouldn't have to drive my TD in the rain.

Don W

Tip of the hat to Celeste and Dave Kray for hosting a great dinner after the Canandaigua Car Show! The food was delicious and the company, as always, awesome. Great after party!

The windshield is finally back on the TA and I can see through it. After a couple of weeks trying, some bad parts, frozen screws, and several false starts, the windshield project is complete. Now I have to get the proper stickers on the new glass and I will be able to take the first drive of the spring...once I get the brakes checked out.

Many thanks to the Herschell family. Jim for his assistance, Sue for coming up with a fantastic idea on nontraditional material, and daughter Nicole for procuring said material.

Again thank you all,

Allyn

Thanks to Brett at BJR Radiator on Child St for his assistance with investigating MGB heater core re-coring, and upon learning that re-coring with the single source supplier in Maine was not cost effective, Brett evaluated and pressure tested free of charge, the new ones that Richard Reynolds and I purchased from Rimmer Bros. BJR Radiator has really been classic-car friendly as they have recored and tested various MG radiators for me and even re-cored an Elva radiator for a friend of mine.

Thanks!

Dan Suter

Thanks to Klint LiMutti and Naomi Wadsworth for coming over to my garage multiple times in helping me install my new interior! Man did you both teach me a lot and gave me the courage to continue and it is almost complete!

Doug Jack's Celebration of Spring Car Awakening

These shots are from a fun video that MGCC member Doug Jack's daughter took of him performing the annual "first start" of his beautiful Triumph TR6, named Percy. Doug describes this ritual:

"When the engine of my Triumph TR6 crashes to life, I get out of the car and go to the rear to listen to the glorious engine blap from the twin Monza exhausts. Then I do a jig which is very similar to a Watusi dance."

Car Show at Windmill Arts & Crafts

Janet and Klint LiMuti in their MG B, **Erin and Justin Foster** in their modern vehicle, and Chris and I in the Sprite traveled from Brewed Awakening in Toomey's corners to the **Windmill Arts and Crafts Bazaar** on route 14a just South of Pen Yann. It started out rough with drizzle and mist, the roads were slick and cars were throwing up rooster tails. We arrived in at the car show around 10am and lined up next to each other. The parking lot was hard packed though a little sloppy. A surprisingly high quality lineup of cars showed, many muscle cars and older classics. If I remember properly, only one other British car, a Ford era Jaguar, one can safely argue that it's not another British car, were in attendance.

We immediately peeled off and started shopping. If you're not familiar with it, it's basically a mix of open air and booth style arts and crafts show. We ate some BBQ, pretzels, fudge, a donut or two may have been consumed as well as some beer tastes, even some whisky samples were handed out. We avoided the perogies because they were store-bought. Chris picked up a bag and we started shopping for a new dining room table.

We came to the conclusion that it's a great place to secure basket auction baskets with so many local companies offering suitable products. Maybe someone can make the trip next weekend with a handful of business cards and promises of car club visits, though some of the vendors are from the other end of the finger lakes region, so care would have to be taken.

All that said, the weather cleared and turned sunny, and after Klint took a trophy, see photo, the drive home was lovely with the hood off and in the company of some muscle cars.

Definitely will attend next year, and maybe bring a well-behaved dog, as loads of folks had theirs on leashes.

Veterans Outreach Center Cruise-In

We're working with the Veterans Outreach Center (VOC) in Rochester to participate in a car-related fundraising event in 2026. Our goal is to support the VOC by coordinating our club and other local car clubs to attend one of their events—ideally one with a venue suitable for a car gathering. The VOC would charge a modest entry fee, helping them raise funds. One possible event is their annual 5K race, which was held last August in Honeoye Falls.

Our responsibilities would include sending virtual invitations, promoting the event on social media, and showing up with our own vehicles. With even modest participation, we hope to help the VOC raise money through entry fees, flag sales, donations, or similar activities.

We're also considering offering the VOC a booth at our car show so they can connect directly with attendees and further their mission of supporting veterans in our community. If you're interested in helping coordinate this event with other car clubs, step up now, and we can start documenting a list of other clubs and social media sites on which to promote participation. -
